

Talking Walls Murals

PRICING & FAQ

WHAT'S YOUR VIBE?

My name is Corie Hinton and I'm a muralist based in Portland, Oregon. My mission is to bring: **positivity, beauty, inspiration, learning** and **understanding** to environments, through painting murals. I listen carefully to your ideas so that together we realize your vision for your home or business. Out of concern for the environment, my own health, and that of my clients, all murals are painted with water-based acrylic paints.

CAN A MURAL BE PAINTED ON ANY SURFACE?

Yes! Murals can be painted on interior or exterior surfaces: from concrete to wood, wallboard to canvas.

HOW LONG DOES IT TAKE TO PAINT A MURAL?

Painting a mural can take from anywhere from several hours to several weeks depending on size and detail.

HOW MUCH DOES A MURAL COST?

Because the amount of time to complete a mural can be difficult to estimate, I price most mural projects by the square foot. A custom hand painted mural is \$8-\$12 per square foot of the surface to be painted. The price within that range depends on the amount of detail and complexity of your project. During our initial consultation, I will consider these factors, and let you know the price per square foot for your project.
